

Environmental, Social and Governance Summary

2021

The following summary provides disclosure in accordance with the Sustainability Accounting Standards Board (SASB) standards for the Infrastructure sector. This document covers the period Jan. 1, 2021 through Dec. 31, 2021, unless otherwise noted. In addition, we provide disclosure of additional environmental, social, and governance (ESG) metrics that we believe are relevant to our business and identify where our efforts and programs are aligned with the United Nations Sustainable Development Goals (UN SDGs). The United Nations adopted the 17 Sustainable Development Goals (SDGs) to create a shared pathway for a sustainable world. Our alignment to the SDGs is highlighted in the back of the document.

About Us

Omega Healthcare Investors, Inc. (Omega, we, our, or us) is a triple-net, equity Real Estate Investment Trust (REIT) (NYSE: OHI) that supports the goals of Skilled Nursing Facility (SNF) and Assisted Living Facility (ALF) operators with financing and capital. We're partners with 63 of the most future-focused, growth-oriented operators in the U.S. and U.K., accelerating their growth strategies with a \$1.45 billion unsecured credit facility and proven access to the largest public equity and debt markets in the world.

Environmental, Social and Governance Oversight

In connection with internal assessments and shareholder engagement, we prioritize environmental, social and governance initiatives that matter most to our business and shareholders. Our Nominating and Corporate Governance Committee has been charged with primary oversight of our sustainability efforts. Our areas of focus include the following:

Environmental

- Efficient Corporate Headquarters Building and Proactive Green Strategies
- Supporting Tenant Programs

Social Responsibility

- Equal Opportunity and Diversity & Inclusion
- Employee Development and Growth
- Supporting Community Involvement

Governance

- Board Structure and Shareholder Rights
- Compensation Practices
- Business Risk Oversight

Omega has established an ESG Steering Committee, with senior management representation from all divisions of the Company, that is responsible for advancing the Company's governance, sustainability, and diversity & inclusion programs. The Nominating and Corporate Governance Committee exercises oversight of the ESG Steering Committee. Management also reports to the board on a quarterly basis, addressing policy and disclosure changes in the quarter including environmental and climate-related risks and opportunities. Omega is committed to creating environmental awareness and consulting with stakeholders. If you have questions or concerns, please contact Matthew Gourmand, Senior Vice President of Corporate Strategy and Investor Relations, at InvestorRelations@omegahealthcare.com

¹ Adjusted FFO is calculated as Nareit FFO excluding the impact of non-cash stock-based compensation and certain revenue and expense items (e.g., acquisition, merger and transition related costs, provisions for uncollectible accounts, provisions for current expected credit losses, severance, etc.). Nareit Funds from Operations (Nareit FFO), is defined as net income (computed in accordance with GAAP), adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. For further information on and a reconciliation of these non-GAAP disclosures is available on our website under "Non-GAAP Financial Measures" or "Quarterly Supplements" at www.omegahealthcare.com.

² This includes the number of distinct real estate property or building assets. This is aligned with the 2018 GRESB Real Estate Assessment Reference Guide.

³ The definition of "indirectly managed assets" is solely based on the landlord/tenant relationship in which the tenant should be assumed to have operational control. This is aligned with the 2018 GRESB Real Estate Assessment Reference Guide.

Environment: Managing Our Footprint

Corporate Headquarters

Our focus on environmental responsibility is also demonstrated by how we manage our day-to-day activities at our corporate headquarters in Hunt Valley, Maryland, which represents our entire controlled corporate real estate. Our leased space of approximately 27,000 square feet has earned the LEED Silver Certification in Existing Buildings: Operations & Maintenance. We promote energy efficiency with features such as an automatic lighting control system, water efficient features, low-VOC paints and floor adhesives, and a single-stream recycling service. *The information below relates solely to our leased corporate headquarters real estate.*

Corporate Environmental Practices and Policy

The eco-friendly strategies incorporated at our corporate office building include:

- Water efficient restroom fixtures, such as dual flush toilets, water-free urinals and water conserving aerators, which reduced the building's water usage by more than 41%
- A single-stream recycling service, which is sorted, processed and recycled professionally, reducing the risk of incorrect assignment of waste products
- Use of green cleaning products, sustainable cleaning equipment, and other environmentally friendly cleanliness practices
- Lighting that includes occupancy sensors that reduce energy consumption
- 100% irrigation reduction
- Lighting retrofit using reduced mercury lamps
- Use of paints and floor adhesives meeting low-VOC requirements set by LEED
- An HVAC system which includes Air Handler Units equipped with economizer condenser coils which reduces energy costs during cooling, as well as a night set-back mode whereby interior temperatures will seasonally vary outside the target temperature in order to reduce costs when the building is unoccupied.

Operator Sustainability Initiatives

Topic

Discussion of approach to measuring, incentivizing, and improving sustainability impacts of tenants

[IF-RE-410a.3]

As a triple-net landlord, our third-party operators have control and responsibility for the properties in our real estate portfolio on a day-to-day basis. While our ability to mandate environmental changes to their operations is limited, our tenants are contractually bound to preserve and maintain our properties in good working order and condition. In connection with this, they are generally required to meet or exceed annual expenditure thresholds on capital improvements and enhancements of our properties. Compliance with this requirement alone, in certain cases, produces improvements in the environmental performance of our properties and reduces energy usage, water usage, and direct and indirect greenhouse gas (GHG) emissions.

Our asset management team seeks to monitor and enforce these contractual requirements, through both Omega personnel and third-party inspectors periodically visiting our properties. These visits focus on ensuring that our properties are being suitably maintained and sometimes result in corrective repair and replacement recommendations. We require that these corrections and replacements comply with local building codes, which often results in the incorporation of sustainable improvements into our properties.

Omega has implemented a capital expenditure sustainability initiative to encourage operators to invest in financially beneficial and environmentally enhancing investment projects. The idea is to financially incentivize operators, through discounts on our standard cost of capital, to invest in sustainable capital projects that provide a favorable return on investment while reducing the environmental footprint of these operations. We have engaged third party consultants to provide recommendations as to what investments provide this combination of economic and environmental benefit. However, we have also encouraged our operators to propose their own suggestions, which we will evaluate based on the extent of the environmental impact. Finally, given the broad geographic dispersion and general lack of direct competition that exists among many of our operators, we are encouraging them to share environmental best practices. Further, we expect to showcase some of these environmental investments at our operator conference, which is generally held biennially, to highlight ways in which financial and environmental efforts can be aligned.

Percentage of leases or agreements that contain provisions requiring compliance with applicable health and safety laws.	100%	100%	100%

All of our leases or agreements contain provisions requiring compliance with applicable health and safety laws. In addition, since 2015, 52% of Omega's development capital has been allocated to facilities built to LEED certification standards.

Pre-acquisition Due Diligence

Topic

Discussion and analysis on use of Phase I and Phase II Environmental Site Assessments (ESAs)

As a triple-net landlord, our third-party operators have control and responsibility for the properties in our real estate portfolio. Our due diligence on all real estate acquisitions includes Phase I and, where appropriate, Phase II environmental assessments (ESAs) as part of our analysis to understand the environmental condition of the property, including whether there is indication of any release of hazardous substances, chemical or waste storage, or other environmental concerns or risks, and to determine whether the property meets certain environmental standards. In the event that our due diligence uncovers environmental contamination, we work with the sellers and/or operators to mitigate any issues.

Because our portfolio is primarily comprised of SNFs, the operations in our facilities are also subject to stringent health regulation and oversight by state regulators, which lowers the risk of environmental contamination onsite.

	2019	2020	2021
Number of Phase II ESAs conducted	7	0	0

Physical Climate Risk

Topic

Discussion and analysis of physical climate risk to properties and insurance requirements

We regularly monitor the impact of significant natural disasters on our properties. In most leases our tenants are required to carry full replacement cost coverage on all improvements located on our properties. For those properties located in a nationally designated flood zone, we typically require our tenants to carry flood insurance pursuant to the federal flood insurance program. For those properties located in an area of high earthquake risk, we typically require our tenants to carry earthquake insurance above what is traditionally covered in an extended coverage policy.

Area of properties/facilities located in FEMA designated 100-year flood zones, by property subsector¹⁰

[IF-RE-450a.1]

For 2021, approximately 5% of properties were located in 100 Year Flood Zones. Of these properties, 93% are SNFs. Put another way, in 2021, about 6% of annualized rent and about 4% of gross real estate investment balance were located in these defined at-risk geographies.

Our corporate goal is to derive less than 10% of rental income from properties in FEMA designated 100-year flood zones.

Description of climate change risk exposure analysis, degree of systematic portfolio exposure, and strategies for mitigating risks

[IF-RE-450a.2]

During the due diligence process, we evaluate the risk of physical, natural disaster or extreme weather patterns on the properties we are looking to acquire. We determine whether there are specific risks to that property or region that need to be mitigated. Through insurance and property specific safety measures - for example, hurricane shutters, earthquake-compliant construction, elevated generators - we seek to ensure that the real estate is both protected and fit for purpose.

¹⁰ 100-year flood zones are defined as land areas subject to a one percent or greater chance of flooding in any given year. For properties located in the U.S., 100-year flood zones shall include those land areas designated by the U.S. Federal Emergency Management Agency (FEMA) as special flood hazard areas (SFHA).

Diversity, Equity & Inclusion

Topic

Diversity & Inclusion Initiatives¹³

Omega has a long-standing commitment to being an equal opportunity employer and has implemented Equal Employer Opportunity policies. In 2021, Omega also began implementing diversity and inclusion training for our Board members and employees, with 100% completion. Additionally, Omega was included in the Bloomberg Gender-Equality Index (GEI) for the third consecutive year - one of only 414 companies worldwide, and one of 15 US REITs, to be included in the 2022 index.

In 2020, our CEO, C. Taylor Pickett, reinforced our diversity and inclusion commitment by signing the CEO Action for Diversity and Inclusion Pledge, one of the largest CEO-driven business commitments to act on and advance diversity, equity and inclusion in the workplace. In addition, in 2020, we implemented several initiatives to further its commitment to diversity and inclusion within its workforce and Board, in its local community and in the industry in which it operates, particularly in light of the racial and social justice challenges that were highlighted in 2020 and during the pandemic.

Omega has expanded its recruitment practices to reach more diverse candidates for employment and Board positions and is developing an internship program with a focus on increasing diversity in the pipeline of eligible employees. At the executive level, one of the Company's five NEOs is a woman. At the executive level, one of Omega's four NEOs (following the departure of Mr. Insoft as of January 1, 2022) is a woman and brings racial diversity to the team, and on the senior management team, 20% are women and 20% bring racial diversity to the team. As of January 2022, we generally report to the full board quarterly on our workforce diversity efforts. In addition, in 2020 we expanded our holiday calendar to include Juneteenth as a paid holiday and encouraged team members to utilize the additional time to learn more about the holiday.

¹³ At the end of 2020, Omega acquired Connected Living, a wholly-owned subsidiary software company that focuses on integrated communication and engagement solutions in the Senior Living industry. Investing in Our Community

Topic

Philanthropic & Charitable Initiatives

In 2020, Omega established, "The Omega Healthcare Investors Business Scholarship Fund", an undergraduate scholarship fund for Black students at a local historically Black university. Omega funded a \$100,000 per year commitment for 5 years. In addition, each year Omega provides five charities that support local Black communities with \$10,000 each, provides a holiday charitable gift of \$10,000 to a local charity, and provides a company match up to \$2,500 per employee in our Charitable Giving & Match program.

Community

We have invested in several local charitable partnerships to improve economic, health and social outcomes in the local Baltimore, Maryland community, with a focus on the local Black community and historically underrepresented communities.

Industry

Omega continues to sponsor Black Administrators in Training programs (AITs) at select facilities in partnership with operators. This program offers its participants the opportunity to develop the skillsets to lead operations at skilled nursing facilities and aims to enhance Black representation in senior roles at our properties.

Omega does not permit the illegal use of Company funds or property for the support of political parties or political candidates for any office (federal, state or local) in the United States or any foreign country. No director, officer or employee is authorized to make or approve such a contribution. See Section C, on page 4, of our [Code of Business Conduct & Ethics](#) found on our website at www.omegahealthcare.com for more information.

Data Security and Privacy

Omega's Vice President of Technology is responsible for overseeing our information security program, which is aligned to industry recognized cybersecurity frameworks. In addition, we maintain an Information Security Incident Response Plan, and have established information security/cybersecurity policies that are internally available to all employees. We conduct annual cybersecurity training for 100% of employees and internal phishing and cyber tests to monitor the vigilance of employees. We employ an escalation process which employees can follow in the event an employee notices something suspicious, and conduct periodic assessments by third parties to assess our vulnerability management and security controls and to assist us in identifying and mitigating security risks. We generally hold corporate townhalls at least twice a year where employees are encouraged to recommend system changes to mitigate corporate risks; and employees may use an anonymous whistleblower hotline and website to raise potential concerns, threats, and risks.

Our Audit Committee has primary oversight of the Company's information security and privacy efforts as they relate to financial reporting, and reviews and discusses the program with management quarterly, with the board providing general oversight of data security and privacy. Our management team reports to the Board on these efforts at least annually.

Global Tax Strategy

It is Omega’s overall goal to meet and exceed expectations of its stakeholders, while continuing to build its reputation as a responsible member of the global business community. Our global tax strategy is intended to help facilitate this goal, while treating existing and potential jurisdictions as stakeholders and balancing their needs and concerns with those of the Company and the rest of its stakeholders.

UN SDGs

Omega has chosen the SDGs that most directly apply to our business. These SDGs help us shape our policies and long-term goals.

Ensure healthy lives and promote well-being for all at all ages

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Achieve gender equality and empower all women and girls

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Reduce inequality within and among countries

UN SDG Targets

- Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
- By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being

- By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship
- By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations

- Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life

- By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value

- Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

- By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status

Omega's Activities

- Skilled nursing facilities still fulfill an essential need within the healthcare continuum, with the majority of residents at our skilled nursing facilities being funded through Medicaid, which covers low-income individuals
- Many of our facilities care for patients with cognitive issues, including memory and mental health disorders

- Community: Omega invested in several local charitable partnerships to improve economic, health and social outcomes in the local Baltimore, Maryland community, with a focus on the local Black and other historically under-represented communities
- Industry: Omega provides grants for operator training programs that focus on development of talent from historically under-represented communities and has initiated a multi-year scholarship program at a local historically Black university

- In 2022, Omega was included in the Bloomberg Gender-Equality Index (GEI) for the third consecutive year - one of only 414 companies worldwide, and one of 15 US REITs, to be included in the 2022 index
- Omega has expanded its recruitment practices to reach more diverse candidates for employment and Board positions and is developing an internship program with a focus on increasing diversity in the pipeline of eligible employees. At the executive level, one of Omega's four NEOs (following the departure of Mr. Insoft as of January 1, 2022) is a woman and brings racial diversity to the team, and on the senior management team, 20% are women and 20% bring racial diversity to the team.

- Omega regularly conducts pay equity reviews to ensure women and men, on average, at various roles and levels of the Company, are paid equitably for their roles and contributions to our success. When a difference is uncovered in total compensation (across base, bonuses and equity), we seek to remediate the gap in order to achieve pay parity

- Since 2015, Omega has committed over \$9.5 billion to acquire, develop and enhance Skilled Nursing Facilities which primarily focus on the wellbeing of the old and frail
- The majority of our operator's reimbursement is from Medicaid, which addresses the needs of low-income individuals

- Omega implemented a comprehensive Human Rights Policy shaped by UN's "Universal Declaration on Human Rights" & ILO's "Declaration on Fundamental Principles and Rights at Work"
- Through its own hiring, training, mentoring, sponsorship and pay equity review programs, Omega is striving to promote inclusion and equality within the company and industry
